Research Interests

CS and AI Education, Human-Computer Interaction, Computational Linguistics, Learning Analytics, Computer-Supported Collaborative Learning

Education

Ph.D. in Human-Centered Computing 08/2024 (expected)
University of Florida Gainesville, FL
Dissertation: Designing for Youth to Create Conversational Agents
Committee: Kristy Boyer (chair), Eric Ragan, Jaime Ruiz, Maya Israel (external)

M.S. in Information Science 2020
University of Pittsburgh Pittsburgh, PA

B.Mgmt. in Management Science 2018
Anhui University Hefei, China

Experience

Graduate Research Assistant | Advisor: Kristy Boyer 08/2020 - present
LearnDialogue Lab, University of Florida Gainesville, FL

- Designed and developed a novel learning tool, AMBY for children to create conversational agents. In AMBY, users can create a chatbot, input training data, formulate responses and deploy the chatbot on a website or phone
- Conducted contextual inquiry and usability studies with 46 children (aged 12-13) and 11 adults to understand user experiences and challenges while using AMBY. The analysis contributes design implications for conversational AI authoring tools that empower AI learning for children
- Clustered affective states and problem-solving behaviors of 86 undergraduate students in an adaptive block-based programming environment for novice learners. This study provided insight into how frustration trajectory models can guide system adaptivity during problem-solving episodes
- Modeled linguistic alignment and its relationship with satisfaction outcome in collaborative programming dialogues using Bayesian mixed-effect models

Research Intern | Supervisors: Amy Ogan, Michael Madaio 10/2019 - 07/2020
Human-Computer Interaction Institute, Carnegie Mellon University Pittsburgh, PA

- Automated data collection for a child literacy system used by 500+ participants in Côte d'Ivoire over 8 months
- Visualized user phonological awareness curriculum progression of 8 units and 1,000+ weekly logs of learning actions

Research Assistant | Supervisor: Erin Walker 04/2019 - 05/2020
Facet Lab, University of Pittsburgh Pittsburgh, PA

- Conducted qualitative research on multi-sessions rapport management of middle school learners with a social robot
- Utilized Independent Component Analysis (ICA) to model linguistic rapport components extracted from human coding and automated LIWC measurements

Awards and Honors

Three Minute Thesis Award (second place), University of Florida 2023

Best Short Paper Award, International Learning Analytics and Knowledge Conference (LAK'23) 2023

Best Paper Award, ACM Technical Symposium on Computer Science Education (SIGCSE'23) 2023

Gartner Group Graduate Fellowship, University of Florida 2022, 2023

Outstanding Undergraduate Thesis (Top 1% in the Class), Anhui University 2018

Academic Excellence Scholarship, Anhui University 2015 & 2016 & 2017

"Merit Student", Anhui University 2015 & 2017

Publications (Google Scholar Page)

Selected Projects

Automated Assessment of Computational Artifacts using LLMs 08/2023 - present

Developing a large language model (LLM)-based evaluation module to enhance open-ended project evaluation methods and reduce teacher workloads

- Developed a rubric for assessing learner-created conversational AI artifacts, encompassing four dimensions: project ideation, AI development, conversational design and end-user satisfaction
- Examined GPT-4's ability to assess learner-created artifacts, highlighting its effectiveness and limitations across different artifact dimensions
- Investigated the trade-offs between rubric-based and example-based prompting strategies, showing that few-shot learning with contextual examples improves LLMs' grading accuracy

Linguistic Alignment in Collaborative Learning Dialogues 01/2021 - 08/2023

Investigating on the role of linguistic alignment in middle school students collaborative problem solving dialogues

- Parsed the syntactic structure and extracted lexical types for both task-relevant and non-task words
- Calculated linguistic alignment on both syntax level and lexicon level for each dialogue exchange
- Performed Beyasian mixed-effect modeling on linguistic alignment and students' satisfaction toward their partner

StudyBuddy: A Chatbot for Effective Study Habits 09/2019 - 10/2020

Designing a chatbot prototype to induce and sustain study behavioral change for university first-year students

- Utilized mix-method to investigate the feasibility of chatbots for study behavioral change of college students
- Developed a chatbot prototype in Slack using DialogFlow and Slack API
- Conducted in-depth interviews with 8 students, 5 faculty and a usability survey with 118 students
- Offered design recommendations for chatbots on building trust with users, incorporating gender and individual differences, importance of context, balancing between immediate help and long-term support

Academic and Community Services

Microsoft TEALS volunteer, teacher for high school computer science (CS1, Python), Fall 2022
Reviewer of Workshop on Innovative Use of NLP for Building Educational Applications (BEA) 2024
Reviewer of Applied Computing and Informatics
Reviewer of ACM Transactions on Computing Education (TOCE)
Reviewer of ACM Technical Symposium on Computer Science Education (SIGCSE TS) 2024
Reviewer of International Society of the Learning Sciences (ISLS) 2023
Reviewer of ACM CHI Conference on Human Factors in Computing Systems (CHI) 2023, 2024
Reviewer of International Conference on Educational Data Mining (EDM) 2022
Reviewer of ACM Conference on Computer-Supported Cooperative Work (CSCW) 2020, 2023

Students Mentoring (*denotes co-authored publications)

Omar Maslamani, B.S. Computer Science, University of Florida
Yvonika Auguste*, B.S. Health Education and Behavior, University of Florida
Carly Solomon*, B.S. Computer Science, University of Florida
Kaceja Calder*, B.S. Computer Science, University of Florida
Chandler Wiggins, B.S. Computer Science, University of Florida
Alex Johnson, B.S. Computer Science, University of Florida

David Vallejo-Lozano, B.S. Computer Science, University of Florida
Madison Edward, B.S. Computer Science, University of Florida
Nandika Regatti*, B.S. Computer Science, University of Florida

Invited Talks and seminars

Speaker of AI in K-12 education seminar, University of Florida 11/2023
Empowering Youth in AI Learning: DIALOGS curriculum and AMBY interface

Guest speaker of PAWS research seminar, University of Pittsburgh 04/2023
Learner Modeling and Design of CS & AI Learning Environments

Guest speaker of AI workshop for Florida middle school teachers, University of Florida 07/2022
Camp DIALOGS: Teaching Conversational AI in Middle School Summer Camps

Guest speaker of undergraduate HCI course, University of Florida 03/2021
Let's Talk It Out: A Chatbot for Effective Study Behavioral Change

Skills

User-Centered Research: Contextual inquiry, interview, survey, storyboard, usability testing, persona, qualitative coding, dialogue act tagging, ethnography, case study
Statistical Analysis: R, SPSS, JMP, Stata
Programming Languages and Frameworks: Python, HTML, CSS, Bootstrap, Javascript, Java, C, VB, SQL, MATLAB, Blazor, React, Blockly
