RESEARCH INTERESTS

CS and AI Education, Human-Centered Design, Computational Linguistics, Learning Analytics

EDUCATION

Ph.D. in Human-Centered Computing University of Florida	08/2024 (expected) Gainesville, FL
M.S. in Information Science University of Pittsburgh	2020 Pittsburgh, PA
B.Mgmt. in Management Science Anhui University	2018 Hefei, China

EXPERIENCE

Graduate Research Assistant Advisor: Kristy Boyer LearnDialogue Lab, University of Florida	08/2020 - present Gainesville, FL
<ul style="list-style-type: none">Designed and developed a novel learning tool, AMBY for children to create conversational agents. In AMBY, users can create a chatbot, input training data, formulate responses and deploy the chatbot on a website or phoneConducted contextual inquiry and usability studies with 46 children (aged 12-13) and 11 adults to understand user experiences and challenges while using AMBY. The analysis contributes design implications for conversational AI authoring tools that empower AI learning for childrenClustered affective states and problem-solving behaviors of 86 undergraduate students in an adaptive block-based programming environment for novice learners. This study provided insight into how frustration trajectory models can guide system adaptivity during problem-solving episodesModeled linguistic alignment and its relationship with satisfaction outcome in collaborative programming dialogues using Bayesian mixed-effect models	
Research Intern Supervisors: Amy Ogan, Michael Madaio Human-Computer Interaction Institute, Carnegie Mellon University	10/2019 - 07/2020 Pittsburgh, PA
<ul style="list-style-type: none">Automated data collection for a child literacy system used by 500+ participants in Côte d'Ivoire over 8 monthsVisualized user phonological awareness curriculum progression of 8 units and 1,000+ weekly logs of learning actions	
Research Assistant Supervisor: Erin Walker Facet Lab, University of Pittsburgh	04/2019 - 05/2020 Pittsburgh, PA
<ul style="list-style-type: none">Conducted qualitative research on multi-sessions rapport management of middle school learners with a social robotUtilized Independent Component Analysis (ICA) to model linguistic rapport components extracted from human coding and automated LIWC measurements	

SELECTED PROJECTS

Automated Assessment of Computational Artifacts using LLMs Developing a large language model (LLM)-based evaluation module to enhance open-ended project evaluation methods and reduce teacher workloads	08/2023 - present
<ul style="list-style-type: none">Developed a rubric for assessing learner-created conversational AI artifacts, encompassing four dimensions: project ideation, AI development, conversational design and end-user satisfactionExamined GPT-4's ability to assess learner-created artifacts, highlighting its effectiveness and limitations across different artifact dimensionsInvestigated the trade-offs between rubric-based and example-based prompting strategies, showing that few-shot learning with contextual examples improves LLMs' grading accuracy	
Linguistic Alignment in Collaborative Learning Dialogues Investigating on the role of linguistic alignment in middle school students collaborative problem solving dialogues	01/2021 - 08/2023

- Parsed the syntactic structure and extracted lexical types for both task-relevant and non-task words
- Calculated linguistic alignment on both syntax level and lexicon level for each dialogue exchange
- Performed Bayesian mixed-effect modeling on linguistic alignment and students' satisfaction toward their partner

StudyBuddy: A Chatbot for Effective Study Habits

09/2019 - 10/2020

Designing a chatbot prototype to induce and sustain study behavioral change for university first-year students

- Utilized mix-method to investigate the feasibility of chatbots for study behavioral change of college students
- Developed a chatbot prototype in Slack using DialogFlow and Slack API
- Conducted in-depth interviews with 8 students, 5 faculty and a usability survey with 118 students
- Offered design recommendations for chatbots on building trust with users, incorporating gender and individual differences, importance of context, balancing between immediate help and long-term support

AWARDS AND HONORS

Three Minute Thesis Award (second place) , University of Florida	2023
Best Short Paper Award , International Learning Analytics and Knowledge Conference (LAK'23)	2023
Best Paper Award , ACM Technical Symposium on Computer Science Education (SIGCSE'23)	2023
Gartner Group Graduate Fellowship , University of Florida	2022, 2023
Outstanding Undergraduate Thesis (Top 1% in the Class) , Anhui University	2018
Academic Excellence Scholarship , Anhui University	2015 & 2016 & 2017
"Merit Student" , Anhui University	2015 & 2017

ACADEMIC AND COMMUNITY SERVICES

Microsoft TEALS volunteer, teacher for high school computer science (CS1, Python)	08/2022 - 12/2022
Reviewer of ACM Transactions on Computing Education (TOCE)	
Reviewer of ACM Technical Symposium on Computer Science Education (SIGCSE TS) 2024	
Reviewer of International Society of the Learning Sciences (ISLS) 2023	
Reviewer of ACM CHI Conference on Human Factors in Computing Systems (CHI) 2023, 2024	
Reviewer of International Conference on Educational Data Mining (EDM) 2022	
Reviewer of ACM Conference on Computer-Supported Cooperative Work (CSCW) 2020, 2023	

STUDENTS MENTORED (*DENOTES CO-AUTHORED PUBLICATIONS)

Omar Maslamani, B.S. Computer Science, University of Florida
 Yvonika Auguste*, B.S. Health Education and Behavior, University of Florida
 Carly Solomon*, B.S. Computer Science, University of Florida
 Kaceja Calder*, B.S. Computer Science, University of Florida
 Chandler Wiggins, B.S. Computer Science, University of Florida
 Alex Johnson, B.S. Computer Science, University of Florida
 David Vallejo-Lozano, B.S. Computer Science, University of Florida
 Madison Edward, B.S. Computer Science, University of Florida
 Nandika Regatti*, B.S. Computer Science, University of Florida

INVITED TALKS AND SEMINARS

Speaker of AI in K-12 education seminar , University of Florida <i>Empowering Youth in AI Learning: DIALOGS curriculum and AMBY interface</i>	11/2023
---	---------

Guest speaker of PAWS research seminar , University of Pittsburgh <i>Learner Modeling and Design of CS & AI Learning Environments</i>	04/2023
Guest speaker of AI workshop for Florida middle school teachers , University of Florida <i>Camp DIALOGS: Teaching Conversational AI in Middle School Summer Camps</i>	07/2022
Guest speaker of undergraduate HCI course , University of Florida <i>Let's Talk It Out: A Chatbot for Effective Study Behavioral Change</i>	03/2021

SKILLS

User-Centered Research: Contextual inquiry, interview, survey, storyboard, usability testing, persona, qualitative coding, dialogue act tagging, ethnography, case study

Statistical Analysis: R, SPSS, JMP, Stata

Programming Languages and Frameworks: Python, HTML, CSS, Bootstrap, Javascript, Java, C, VB, SQL, MATLAB, Blazor, React, Blockly

Last updated: March 5, 2024
